

INSTALLATION INSTRUCTIONS IMPORTANT SAFEGUARDS

Read & Follow All Safety Instructions

When using electrical equipment, basic safety precautions should always be followed including:

1. Disconnect power before performing work on electrical equipment.
2. Do not mount near gas or electric heaters.
3. Do not let power cords touch hot surface.
4. Equipment should be mounted in locations and at heights where it will not be subjected to tampering.
5. The use of accessory equipment not recommended by Beghelli Inc., may cause an unsafe condition, and will void the unit's warranty.
6. Do not use this equipment for other than its intended purpose.
7. Servicing of this equipment should be performed by a qualified service personnel.
8. Allow battery to charge for 24 hours before first use.
9. DO NOT install in unstable, loose or breakable surfaces.
10. DO NOT let objects impact or exert force on the surface of the fixture.

SAVE THESE INSTRUCTIONS!

INSTALLATION (Max mount height 25ft)

1. Connect wire to DC 3-12V supply in accordance with local and national codes. Yellow wire is for positive, purple wire is for negative.
2. Ensure all wiring and mounting is sealed and water tight if mounting outdoors.

Notice: This remote head is a constant power fixture and needs to match the emergency battery backup equipment specified by manufacturer. If you use another manufacturer's emergency unit, you must test and confirm discharge time in advance of installation.
