SAVE THESE INSTRUCTIONS

1. When you connect AC power to the fixture, it will automatically initiate an autotest. This will do the following:

   (a) Verify the battery disconnection, charger board failure every 5 seconds

   (b) Issue 1 minute autotest every month

   (c) Issue 30 minute autotest every 6 months after installation

   (d) Issue 90 minute autotest every 12 months after installation

2. Dual color LED lamp indicator shows the following status:

   (a) Green color   On / Ready

   Blinking / Testing

   (b) Red color   (Service Alert)

   (c) Service Alert LED Code (Red color, LED lamp indicator)

●	One blink,	4 second pause	Battery is not connected
● ●	Two blinks,	4 second pause	Battery voltage too low
● ● ●	Three blinks,	4 second pause	Charger board circuit failure
● ● ● ●	Four blinks,	4 second pause	Transfer function failure
● ● ● ● ● ● ●	Seven blinks,	4 second pause	LED strip failure

NOTICE

After you've fixed the problem with the fixture, please press and hold the test button for 2 seconds to reset it. The LED indicator will show green.

3. Autotest also has a manual test function. Press test button to do the following:

Press test button once	30 seconds discharge test
Press test button twice within 2 seconds	3 minutes discharge test
Press test button 3 times within 2 seconds	30 minutes discharge test
Press test button 4 times within 2 seconds	90 minutes discharge test
